CUBICO
CHARCOAL METALLIC

Three bonsai trees with thick, gnarled trunks and dense green foliage are planted in three identical, tall, black, rectangular planters. The planters are arranged in a row, with the tallest one on the right and the shortest on the left. The scene is set in a modern interior with large windows in the background, featuring a decorative metal frame with oval cutouts. The floor is covered with a light-colored, textured rug. In the foreground, the corner of a light-colored armchair is visible on the left.

LECHUZA planters are manufactured from the highest quality plastics in our environmentally-certified production facility and are recyclable.

They are tested to the highest standards for flammability in both Europe and the USA and fully satisfy the criteria (following EN 71-2: 2011 16 CFR 1500.44 (ASTM F 963-11, Pkt./para. 4.2)).

LECHUZA planters are made in Germany and feature the unparalleled functionality of the LECHUZA sub-irrigation system.
