# Like the Pottery Pots mascot!

## ENG |

If you sell products you need imagery. For the very first official collection shoot of Pottery Pots, almost ten years ago, they decided to picture the eye-catching Glossy Jumbo pottery. To emphasize their Dutch roots they thought it was nice to put a few of these pots in a typical flat Dutch scenery, which was situated next to the Pottery Pots office back then. Before they knew some curious cows joined and they ended up with pictures of pottery surrounded by cows. As these were the first images Pottery Pots used, they became key images of the brand. People started to recognize Pottery Pots by the cows and 'the cow' as the epitome of their Dutch origin, became part of the Pottery Pots identity.

With having a new visual appearance Pottery Pots imagined it would be amusing to highlight the relation between the company and the cow. That is why the team of Pottery Pots came up with the idea to adopt a real cow. At 'The Hartstocht', a farm company situated in the shadow of Amsterdam, they found a beautiful cow. From now on she will be the mascot of the brand and you can follow her on the social media channels of Pottery Pots.

## NL |

Beelden zijn veelal een goede ondersteuning bij de verkoop van producten. Voor de allereerste fotoshoot van Pottery Pots, nu bijna tien jaar geleden, besloten zij om de iconische Glossy Jumbo collectie te fotograferen. Om hun Nederlandse roots te benadrukken, leek het Pottery Pots een leuk idee om de potten te fotograferen in een typisch vlak Nederlands weiland. Naast het kantoor destijds, bevonden zich prachtige weilanden die een perfecte setting vormden. Voordat zij het wisten stonden er nieuwsgierige koeien om de potten heen en hadden ze foto's van de potten gecombineerd met de Nederlandse koeien.

Omdat dit de eerste beelden waren die Pottery Pots gebruikte in de brochures en op beurzen, werden deze al snel hoofd beelden van het merk. Mensen begonnen Pottery Pots te herkennen aan de koeien en het dier werd, als belichaming van hun Nederlandse afkomst, een deel van de identiteit van Pottery Pots.

Ook in de nieuwe visuele uitingen wil het bedrijf de relatie tussen het merk Pottery Pots en de koe behouden en uitlichten. Pottery Pots heeft zelfs besloten om een echte koe te adopteren. Bij stadsboerderij de Hartstocht hebben zij een mooie koe gevonden. Vanaf nu zal zij de mascotte van het merk zijn en kan zij gevolgd worden op de social media accounts van Pottery Pots. te benadrukken, leek het ons een leuk idee om de potten te fotograferen in een typisch vlak Nederlands weiland.

## 'The cow has been playing an essential role in the identity of Pottery Pots.'

Bilder sind oft eine gute Unterstützung für den Verkauf von Produkten. Für ihr erstes Foto-Shooting vor fast zehn Jahren haben sie beschlossen, ihre ikonische Glossy Jumbo Kollektion zu fotografieren. Um hiermit ihre holländischen Wurzeln zu betonen, erschien es ihnen als eine gute Idee, die Gefäße auf einer typisch flachen holländischen Weide zu fotografieren. Neben ihrem damaligen Büro gab es eine schöne Weide, die eine perfekte Kulisse hierfür bot. Ehe sie sich versahen, standen neugierige Kühe um die Töpfe versammelt und Pottery Pots hatte Fotos von ihren Gefäßen kombiniert mit holländischen Kühen. Da dies ihre ersten Bilder waren, die sie in ihre Broschüre auf den Messen verwendeten, wurde es schnell zu dem Hauptkennungsmerkmal von Pottery Pots Menschen fingen an Pottery Pots anhand der Kühen wiederzuerkennen, das heißt die Kuh wurde als Verkörperung ihrer niederländischen Herkunft Teil der Identität von Pottery Pots.

Auch in ihrer neuen visuellen Repräsentation möchten Pottery Pots die Beziehung zwischen ihnen und der Kuh beibehalten und weiterhin in den Vordergrund stellen. Pottery Pots hat beschlossen eine echte Kuh zu adoptieren. Bei dem Bauernhof Hartstocht in den Niederlanden fanden sie eine schöne Kuh. Von nun an wird es das Maskottchen von Pottery Pots sein und man kann ihr auf ihren Social-Media-Seiten folgen.

## FR |

Les images sont souvent un bon support à la vente de produits. Pour la toute première séance photo de Pottery Pots, il y a presque dix ans, ils avaient choisi de photographier leur collection Jumbo Glossy iconique. Pour souligner leurs racines néerlandaises, il leur semblait une bonne idée de photographier les pots dans un paysage typiquement hollandais. En plus leur bureau à l'époque, se trouvait en pleine campagne qui forme un cadre parfait. Avant qu'ils le savaient, il y avait des vaches curieuses autour des pots et ils ont eu des photos de leurs pots combinés avec les vaches néerlandaises. Parce que c'était les premières images qui ont été utilisées dans les brochures et sur des salons, se sont devenues les images les plus importantes de la marque. Les gens ont commencé à reconnaître Pottery Pots par la vache et la vache a été, comme l'incarnation de leur héritage hollandais, une grande partie de leur identité.

Aussi dans les expressions visuelles nouvelles, ils ont voulu maintenir la relation entre Pottery Pots et de la vache. C'est pour ça qu'ils ont décidé d'adopter une véritable vache. À la ferme urbaine « de Hartstocht » Pottery Pots a trouvé une belle vache. Par la suite, elle serait leur mascotte et elle peut être suivie sur les réseaux sociaux.

# The materials Pottery Pots uses

## ENG |

Pottery pots is well known for its broad range of fiberstone and ficonstone products. From the moment the company was founded, they believe that design should be available for everyone.

All the handmade products are pure craftsmanship, handled with love and care. The complete assortment is made from high quality, durable material that will last indoor and outdoor. Because of the high quality and durable materials, Pottery Pots products come with a standard 2 year guarantee.

Fiberstone

**Glossy collection | Matte collection | Natural collection | Gradient collection | Platinum collection | Jan de Bouvrie collection**

The majority of the Pottery Pots product range is made of fiberstone. This material is based on precious natural stone. Fiberstone consists of a mixture of fiberglass and crushed stone. These two raw materials ensure a durable material that is suitable for both indoor and outdoor use at any temperature. The unique characteristics of this lightweight material, which is virtually the same in appearance as natural stone, makes this product a better alternative.

Ficonstone

**Antique collection | Laterite grey collection | Ridged collection | Rough collection**

Next to fiberstone Pottery Pots also has collections made of ficonstone, a combination of fiberglass, cement, sand and finely ground stone. Ficonstone has a natural, rough heavy feeling.

The main differences between fiberstone and ficonstone are the weight, pricing and finishing. Fiberstone is a lightweight material, in the upper segment of pricing and originally in a natural finish but further developed to a high-gloss finish.

Ficonstone on the other hand is a slightly heavier material, in the lower segment of pricing and comes in a more raw and rough finish.

## NL |

Pottery Pots staat bekend om het grote assortiment aan fiberstone en ficonstone producten. Vanaf de oprichting van het bedrijf, geloven zij dat design voor iedereen bereikbaar moet zijn.

Alle handgemaakte producten zijn puur vakmanschap, met passie en zorg gemaakt. De hoge kwaliteit en de duurzame materialen zorgen ervoor dat de producten zowel binnen als buiten te gebruiken zijn.

Om in te staan voor deze hoge kwaliteit en duurzame materialen biedt Pottery Potsop alle producten een garantie van 2 jaar.

**‘Pottery Pots aims for an assortment that is made from durable materials that will last indoor and outdoor.’**

Fiberstone

**Glossy collection | Matte collection | Natural collection | Gradient collection | Platinum collection | Jan de Bouvrie collection**

Het grootste deel van het assortiment van Pottery Pots is gemaakt van fiberstone. Dit materiaal is gebaseerd op het kostbare natuursteen. Fiberstone bestaat uit een mengsel van glasvezel en steengruis. Deze twee grondstoffen zorgen voor een oersterk materiaal, geschikt voor binnen en buiten bij elke temperatuur. De unieke eigenschap van het lichte gewicht en met nagenoeg dezelfde uiterlijke kenmerken als natuursteen, maakt dit product tot een beter alternatief.

Ficonstone

**Antique collection | Laterite grey collection | Ridged collection | Rough collection**

Naast de fiberstone producten biedt Pottery Pots ook collecties gemaakt van ficonstone, een combinatie tussen fiberglass, cement, zand en fijn gemalen steen. Ficonstone heeft een natuurlijke, stoer en zwaar gevoel.

Het grootste verschil tussen fiberstone en ficonstone zijn het gewicht, de prijs en de afwerking. Fiberstone is een lichtgewicht materiaal, in een hoger prijssegment. Van origine heeft fiberstone een natuurlijke afwerking, maar ook een hoogglans afwerking is mogelijk bij dit product. Ficonstone is een zwaarder materiaal, in een lager prijssegment en is verkrijgbaar in een ruwere, stoerdere afwerking.

## DE |

Pottery Pots ist bekannt für ihre große Auswahl an Fiberstone und Ficonstone Produkten. Seit der Gründung des Unternehmens, glauben sie, dass Design für jedermann zugänglich sein sollte.

Alle ihre Produkte sind handgefertigt und reine Handwerkskunst, die mit Leidenschaft und Sorgfalt angefertigt werden. Die hohe Qualität und langlebigen Materialien sorgen dafür, dass die Produkte sowohl Innen- als auch im Außenbereich eingesetzt werden können.

Um diese hohe Qualität und langlebigen Materialien ermöglichen zu können, bietet Pottery Pots auf all ihre Produkte eine Garantie von 2 Jahren an.

Fiberstone

**Glossy collection | Matte collection | Natural collection | Gradient collection | Platinum collection | Jan de Bouvrie collection**

Die Mehrheit ihrer Produktpalette besteht aus Fiberglas. Dieses Material basiert auf wertvollem Naturstein. Fiberstone besteht aus einer Mischung von Fiberglas und Schotter. Diese beiden Rohstoffe gewährleisten ein haltbares Material, das bei jeder Temperatur für den Einsatz drinnen und draußen geeignet ist. Die einzigartigen Eigenschaften dieses leichten Materials, welches praktisch das gleiche Aussehen wie Naturstein hat, macht dieses Produkt zu einer besseren Alternative.

Ficonstone

**Antique collection | Laterite grey collection | Ridged collection | Rough collection**

Neben den Fiberstone Produkten hat Pottery Pots auch eine Kollektion von Ficonstone, das ist eine Kombination zwischen Fiberglas, Fibercement und Fibersand und aus gemahlenen Stein.

Der größte Unterschied zwischen Fiberstone und Ficonstone ist das Gewicht, der Preis und die Verarbeitung.

Steinfaser ist ein leichtes Material in einem höheren Preissegment. Ursprünglich hat Fiberstone eine natürliche Verarbeitung, aber auch eine hochglänzende Oberfläche ist möglich mit diesem Produkt. Ficonstone ist ein schwereres Material, in einer niedrigeren Preisklasse und ist in einer rauerer, härteren Oberfläche erhältlich.

## FR |

Pottery Pots est connu pour sa large gamme de produits de fiberstone et de ficonstone. Depuis sa Fondation, nous croyons que 'design' devrait être accessible à tous.

Tous nos produits faits à la main sont l'art pur, fabriquer avec soin et passion. La haute qualité et les matériaux durables font que les produits peuvent être utilisés à l'intérieur comme l'extérieur. Pour assurer ces matériaux durables et haute qualité, nous offrons une garantie de 2 ans sur tous nos produits.

Fiberstone

**Glossy collection | Matte collection | Natural collection | Gradient collection | Platinum collection | Jan de Bouvrie collection**

La majeure partie de notre assortiment est constituée de fiberstone. Ce matériau est basé sur de la pierre naturelle précieuse.

Le fiberstone est un mélange de fibre de verre et de poudre de pierre. Ces deux matières premières garantissent un matériau très dur adapté à chaque température extérieure et intérieure.

Grâce à son poids léger unique et au fait que ce produit dispose des mêmes caractéristiques extérieures que la pierre naturelle, il constitue une meilleure alternative.

Ficonstone

**Antique collection | Laterite grey collection | Ridged collection | Rough collection**

Outre les produits en fiberstone nous avons aussi créé des collections en ficonstone, une combinaison de fibre de verre, ciment, sable et de la pierre finement moulue. Ficonstone a un sentiment naturel, dur et lourd.

La plus grande différence entre le fiberstone et le ficonstone est le poids, le prix et la finition. Le fiberstone est un matériau léger, dans un segment de prix plus élevé. À l'origine le fiberstone a une finition naturelle, mais une finition laquée est aussi possible sur ce produit. Ficonstone est un matériau plus lourd, à un segment de prix inférieur et est disponible dans une finition plus rugueuse et robuste.

# The generous assortment of Pottery Pots

**‘By dividing the collections into different series it is easier to meet the specific taste of the Pottery Pots customers.’**

## **ENG |**

At Pottery Pots they design for the public. They aim for an extensive and diverse assortment that meets the taste of any customer. To be able to maintain a good overview of our assortment we divided our collections into specific ranges;

### **Essentials | Classic | Deluxe | Trend | Collaboration**

Each range functions as an umbrella for a few collections that share the same style and attitude. By doing this each collection can be presented in its own ambience and it is given the attention it deserves.

## **NL |**

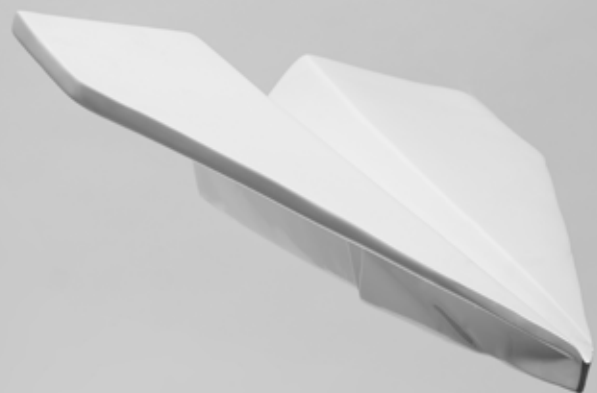

Bij Pottery Pots ontwerpt men voor het publiek. Zij streven we naar een uitgebreid en divers assortiment dat voldoet aan de smaak van elke klant. Om een goed overzicht te houden in het assortiment is er een verdeling gemaakt in verschillende reeksen.

### **Essentials | Classic | Deluxe | Trend | Collaboration**

Elke reeks fungeert als een paraplu voor een aantal collecties, die in stijl en gevoel overeenkomen. Hierdoor kan elke collectie in zijn eigen sfeer getoond worden en krijgt het de aandacht die het verdient.

## DE |

Bei Pottery Pots wird für die Öffentlichkeit entworfen. Darum streben sie nach einem umfassenden und unterschiedlichen Sortiment, das den Geschmack eines jeden Kunden gerecht wird. Um einen guten Überblick über ihr Sortiment zu bekommen, haben sie ihre Kollektion in bestimmte Bereiche unterteilt

### **Essentials | Classic | Deluxe | Trend | Collaborations**

Jeder Bereich fungiert als ein Regenschirm, welcher für eine Anzahl Kollektionen steht, die denselben Style und Standpunkt verkörpern. Auf diese Weise kann jede Kollektion in seinem eigenen Ambiente präsentiert werden und geben dieser die Aufmerksamkeit, die sie verdient.

## FR |

Chez Pottery Pots, nous développons pour le public. Par conséquent, nous nous efforçons pour une gamme de produits complète et diversifiée qui répond au goût de chaque client. Afin de garder une bonne vue d'ensemble de notre gamme, nous avons fait une division entre différentes gammes;

### **Essentials | Classic | Deluxe | Trend | Collaborations**

Chaque série sert comme parapluie pour un certain nombre de collections, qui correspondent dans le style et sentiment. Cela nous permet à montrer chaque collection dans sa propre atmosphère et de donner l'attention qu'elle mérite.

# The Classic series

---

The products from the Classic line are the heroes of the Pottery Pots assortment. The combination of classic shapes and rough, characteristic finishes are making this line an all time favourite. Each finish has its own original story that declares the distinctive look.

# The Trend series

---

As Pottery Pots is a young company it is their second nature to stay innovative. On a daily basis they get inspired by new developments and trends. To be able to give Pottery Pots' vibrant and changing vision a platform, they have set up the Trend line. A collection with a range of products, inspired by the latest designs. These are all shifting collections so you are always up to date according to the latest trends.

- **Rough collection**
- **Ridged collection**

# Trend

A modern interior scene featuring a white shelving unit with plants and a large potted plant in the foreground. The shelving unit has two white pots on the top shelf, one with a fern and one with a succulent. Below the shelf is a stack of firewood. In the foreground, a grey sofa with white pillows is visible. A large, light-colored, ribbed pot with a green plant sits on a wooden stand in the foreground.

Trend series

---

A photograph of two potted plants on a dark wooden table. The larger plant is a green leafy plant in a dark grey, textured concrete pot. The smaller plant is a succulent in a similar dark grey, textured concrete pot. The background shows a pinkish-red sofa. The text 'Trend series' is in the top left, 'Rough collection' is in the bottom right, and a quote is at the very bottom right.

# The Collaboration series

---

At Pottery Pots they like to share their vision and ideas. Not only within the company, but also out of their comfort zone. This resulted in the Collaboration line, where they fulfilled the desire to work with other inspiring persons or companies. Pottery Pots believes that collaborating with external designers or companies, will originate the most innovative and surprising products.

# How to take care of the products

---

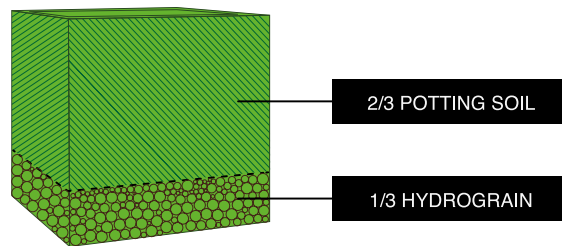

Most of the Pottery Pots products can be used both indoors and outdoors. When products are placed outdoor a different treatment is required from indoor use.

- Indoor & outdoor instructions
- Use and care collection

Use and care

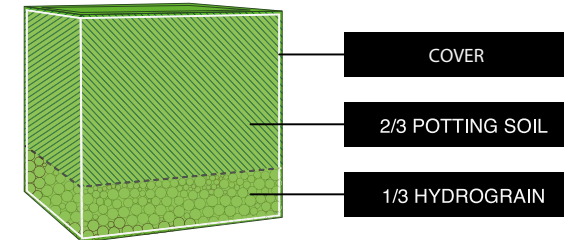

# Indoor instructions

- Cover the inside with a water-resistant inner tray or pond liner.
- Put the planter in the right place.
- Fill the planter with 1/3 of hydro grain. The hydro grains contribute to the water management and make sure that your plants grow better.
- Then fill the planter with 2/3 of potting soil and place the plant in the planter.
- Last you can choose to cover the soil with a decorative layer of hydro grain, bark chips or groundcover plants.
- After filling the planter, we recommend not to replace the planter. The weight of the hydro grain and the potting soil could cause damage to the planter.

# Outdoor instructions

- Drill holes in the bottom of the planter. Use a 8-10 mm metal/wood drill.
- Drill several holes, the number of holes depends on the size of the planter. Document available upon request.
- Cover the holes with mesh, to make sure the soil cannot clog the holes.
- Make sure that planters without feet not directly make contact with the subsurface. Loose feet prevent this or a plant saucer can be used.
- If you directly place a planter without feet on the subsurface, we recommend to drill the holes at the side of the planter instead of in the bottom. This best can be done 5 to 10 cm above the ground.
- A piece of duct tape placed where you want to drill the hole, will help keep the drill bit from slipping
- Fill the planter with 1/3 of hydro grain. The hydro grains contribute to the water management and make sure that your plants grow better.
- Then fill the planter with 2/3 of potting soil and place the plant in the planter.
- Last you can choose to cover the soil with a decorative layer of hydro grain, bark chips or groundcover plants.
- After filling the planter, we recommend not to replace the planter. The weight of the hydro grain and the potting soil could cause damage to the planter.
